Public-Sector Solutions' goes Worldwide! The International Mission Board Implements the USL Financials System in over 60 Countries!

International Mission Board (Vienna, VA) implements Public-Sector Solutions in over 60 countries. "This is a clear demonstration of the flexibility of the USL system." said David Radomsky, a Senior Technology Developer at Public-Sector Solutions. "Without missing a beat the system is easily customized to the local currency and translated back into dollars." "Being able to provide a system to meet the exact needs of the client and close customer support is what sets us apart from the other providers in the industry."

The International Mission Board is funded by a variety of donations from individuals, churches and foundations nation-wide, this had created complex and arduous cost tracking and fund accounting needs. The organization frequently has to convert from dollars donated to various local currencies back into financial reports reconciled in dollars. IMB has battled with these tasks since the inception of the organization. The USL Financials system is fully automated and will cut the amount of resources allocated to financial reporting and tracking, speed up the process and ensure accuracy. Volunteers often operate the system, this meant it had to be ser-friendly, within a couple of hours a person can master the basics.

About Public-Sector Solutions

Public-Sector Solutions is a leading provider of fund accounting financial enterprise management and procurement solutions for the public sector market. The company is pioneering the 'B2P' (Business to Public-Sector) market space, which includes state and local governments, not-for-profit organizations, educational and research institutions.
