Public-Sector Solutions provides Clark County with a state of the art Financial ERP system. October 2002

Yet another of our success stories has been the Clark County Project which went live in October 2002. Public Sector Solutions is providing Clark county seamless integration with Microsoft's platform through its Financial Enterprise Management Suite "USL Financials". USL can be hosted locally on the client's network, ("Local Hosting") or remotely hosted and delivered over the Internet ("ASP" hosting). Our solutions are differentiated from other vendors as we offer built in fund accounting and encumbrance accounting logic. We are therefore:

1. Faster to implement.
2. Easier to use.
3. Cheaper to install, and Cost effective to maintain.

With Multi-level security by user, menu, department, and account we are more secure. The applications come with the complete source code. On purchase of our annual maintenance agreement you also get free product updates.

About Public-Sector Solutions

Public-Sector Solutions is a leading provider of enterprise management solutions for the public sector market. P-SS has been committed to Microsoft technologies since 1993, and continues to develop new innovative uses for MS technology. P-SS develops applications to reduce costs and increase efficiency for state and local governments, not-for-profit organizations, educational and research institutions.

About USL Financials

USL Financials is the premier client/server fund and encumbrance accounting and procurement solution for state and local governments, not-for-profit organizations, educational and research institutions. The financial suite has been developed by public sector CPAs specifically to meet the public sector industry's unique needs. Total integration with Microsoft Platforms and with MS Office is a unique feature that makes the product easy to use, stable and highly efficient.
