Falls Church, VA – June 03, 2009, – Public-Sector Solutions Inc. (“PSS”), a leader in financial reporting and management solutions, has been awarded a contract by the California Department of Mental Health to implement a Customized Off The Shelf (COTS) accounting solution to replace its aging in-house developed applications for the processing of medical claims. The expertise of PSS’s staff and the versatility of its proprietary component architecture is bearing fruits for DMH with this specific financial management solution that includes *USL Financials* government accounting software and the advance reporting and analytics capabilities of the HCG *Prevision* report writer.

This application provide a comprehensive solution that enables DMH to efficiently process more than 15 million adjudicated claims annually, and generate financial and statistical reports for the 58 counties in the State of California. Using a HIPAA-compliant database allows for the secure processing and storage of claims information along with bi-directional interfaces with the Department of Health Care Services, the State Treasurer’s Office, and the State of California’s CALSTARS accounting system. The system processes county reimbursements provided for by both the state and federal government, while consistently maintaining patient confidentiality. Contact us to learn more about this cutting-edge COTS solution and how it can benefit your company.

About the California Department of Mental Health

California’s public mental health system offers an array of community and hospital-based services that are available to adults who have a serious mental illness and children with severe emotional disorders. All services are administered by the state, and directly provided or arranged for by local mental health departments including rehabilitation and support, evaluation and assessment, vocational rehabilitation, individual service planning, residential treatment, and medication education and management.
